

XD Bridge ST

Cross Domain Solution for Fixed Format and Streaming Data

CAPABILITIES

- TCP/UDP streaming of structured (XML schemas) and fixed format (Link16, USMTF, VMF DFDL schemas) data messages.
- REST POST transfer of structured and fixed format data files
- Software-enforced linear assured pipeline filtering
- Hardware-enforced diode-based processing isolation and separation

COMPLIANCE

- NCDSMO Baseline Certification (Q4CY21)
- NSA and Common Criteria hardware-enforced diode certification
- CLIP enforced STIG compliant configuration
- Raise-the-Bar (RTB) phase one compliant as listed on the NCDSMO Baseline

RTB-Ready Secure Data Transfer

XD Bridge ST is a flexible, high performance Cross Domain Solution providing assured transfer for streaming or posting fixed format and structured data.

XD Bridge ST provides data inspection and sanitization through a comprehensive linear pipeline filtering process using validated data schemas to ensure data is “clean” prior to transfer. Owl’s linear assured pipelines enable a wide range of high-to-low and low-to-high use cases, with support for XML, Link16, USMTF, VMF, and other data formats.

Flexible Configuration

Owl provides XD Bridge ST in a variety of form factors to meet the needs of tactical operations as well as datacenter implementations, with bandwidth capabilities up to 10 Gbps.

Hardware-Enforced Domain Separation

Owl CDS solutions integrate data diodes to provide hardware-enforced one-way data transfer capabilities. Depending on the specific needs of the customer, Owl offers solutions that provide data transfers for one-way, two-way, or bidirectional use cases.

LOW SIDE SECURITY DOMAIN

XD Bridge ST

HIGH SIDE SECURITY DOMAIN

- ISR Sensor Data Streams
- Unclassified Data Feeds (NWS, FAA)
- Monitoring / Reporting Information
- Equipment Software Updates

- Off-board Mission Planning Systems
- Fusion Workstations
- Coalition Info Sharing
- Maintenance Systems

Available Form Factors

XD Bridge ST is available in several tactical and datacenter form factors, with support for bandwidth up to 10 Gbps. Technical specifications including operating conditions, power supply, storage conditions, mounting system, and network connectivity are available in the applicable form factor datasheets.

DATACENTER - 1U
Up to 1 Gbps bandwidth

DATACENTER - 2 x 2U
Up to 10 Gbps bandwidth

TACTICAL
Up to 1 Gbps bandwidth

DATACENTER - 1U
Up to 10 Gbps bandwidth

Owl Cyber Defense Solutions, LLC leads the world in data diode and cross domain network cybersecurity. With a constant focus on customers in the military, government, critical infrastructure, and commercial communities, Owl develops market-first, one-way data transfer products to meet a variety of operational needs, from entry level to enterprise.
